

# The Value of the Lockheed Sanders RASSP Approach

Joseph F. Trepanier  
Lockheed Sanders, Inc.  
Vice President and General Manager  
Advanced Engineering and Technology Division

## Abstract

*This talk will present how Lockheed Sanders, Inc. is applying RASSP to a variety of programs across several divisions of the company. Lockheed Sanders produces diverse electronics products for a wide variety of mission areas and applications. Mr. Trepanier will describe how Lockheed Sanders perceives the value of RASSP to its business and will briefly discuss selected programs and the value added by the application of RASSP to them.*
