

Motivation

Currently the generate blocks are not explicitly mentioned among sequence and property declaration scope. Since the grammar allows it, they should be explicitly mentioned.

16.7 Declaring sequences

REPLACE

A **sequence** can be declared in

- A module
- An interface
- A program
- A **clocking** block
- A package
- A compilation-unit scope

WITH

A **sequence** ~~can~~ **may** be declared in

- A module
- An interface
- A program
- A **clocking** block
- A package
- A compilation-unit scope
- A **generate block**

16.12 Declaring properties

REPLACE

A **property** can be declared in any of the following:

- A module
- An interface
- A program
- A **clocking** block
- A package
- A compilation-unit scope

WITH

A **property** ~~can~~ **may** be declared in any of the following:

- A module
- An interface
- A program
- A **clocking** block
- A package
- A compilation-unit scope

— A generate block
