

Description

This proposal fixes an editorial issue discovered in 1641. Since 1641 is already approved we are creating a separate proposal for this fix. In 1641, the statement “which can be suppressed in a tool-specific manner” was not shown as deleted.

Suggested Resolution

In Clause 16.3,

replace:

— `$warning` is a run-time warning, which can be suppressed in a tool-specific manner.

by:

— `$warning` is a run-time warning, ~~which can be suppressed in a tool-specific manner.~~
